Subject: Rosemont Copper Mine Project FEIS, Coronado National Forest, Supervising Official Jim Upchurch
Date: Wednesday, February 12, 2014 11:11:35 AM

I am filing a formal objection because ten of my comment letters on the Draft EIS, which were submitted timely in January 2012 via email with Word docx attached, were neither included in nor responded to in the FEIS - Appendix G. On February 10, 2014, I spoke to Bev Everson at the Coronado NF Office in Tucson and upon her recommendation, forwarded to her the original emails with the comment letters attached. The comments addressed the following sections of the EIS:

- 1) Transportation
- 2) Hazardous Materials
- 3) Successors to Augusta Resources should the company be taken over or sold
- 4) Visual Resources
- 5) Diesel Fumes
- 6) Economics
- 7) Biological Resources (general)
- 8) Biological Resources specifically referring to Birds
- 9) Ground Water Quantity
- 10) Ground & Surface Water Quality

Only four of my comments - two submitted at public hearings and two submitted by email (letters # 3865 on Air Quality and #7495 on Reasonableness) were included in Appendix G. Four additional letters shown under my name in the index of public comments refer to pg 804 in Appendix G, which indicates the comments were duplicates; however neither the duplicates nor the originals were included. Appendix G needs to be amended to include these ten missing comment letters; none of which contained sensitive proprietary or resource information.

I am forwarding the original emails with attachments to you separately - so expect ten emails to follow this one. I am sorry but I don't have the ability to scan in a my signature.

Photo of my signature is attached.
