RE: ROSEMONT MINING
SE ARIZ - SANTA RITA MTS.

SIR:

There is only ONE ISSUE WHICH TRUMPS
ALL OTHERS REGARDING ROSEMONT MINING'S
PLANS TO EXTRACT COPPER FROM THE SANTA
RITA'S EAST SLOPE:

WATER

THEY EXPECT TO USE 5,000 ACRE FEET OF
WATER PER YEAR FOR 20 YEARS. LAKE
MEAD & LAKE POWELL ARE AT HISTORIC LOWS.
WHERE DOES ROSEMONT GET THIS WATER THEY
NEED? AQUIFER? SUCKING LOCAL WELLS DRY?
THE CAP? COPPER FOR THE CHINESE VS. WATER,
WHAT THERE IS LEFT IN CALIF, NEV & ARIZ FOR
US RESIDENTS? NOT EVEN A CLOSE CALL.

THANK YOU FOR YOUR STOPPING THIS PROJECT
ON USFS LAND -

Sue Mey
