**To:** Chris Garrett  
**Subject:** RE: requested ADEQ sampling results for Davidson & Cienega

Hi Chris:

The first tab, "2012-13" is our most recent and only attempt (I believe), to collect surface water (not stormwater) quality data from Cienega & Davidson since Davidson became an OAW.

The second tab, "SW basic-phs" is a collection of all surface water (not stormwater) sampling activity ADEQ has in its database for Cienega & Davidson from all sources. "phs" are the initials of the ADEQ hydrologist who compiled it.

Dennis L. Turner

**Subject:** RE: requested ADEQ sampling results for Davidson & Cienega attached

I just discovered this morning the tab called "SW basic-phs"

I'll get back to you as to what that is.

**To:** Dennis L. Turner; [msvogel@fs.fed.us](mailto:msvogel@fs.fed.us); 'karnold@rosemontcopper.com'  
**Subject:** RE: requested ADEQ sampling results for Davidson & Cienega attached

So most important question: are these all stormwater samples?
